Internal glass transport provides the ultimate range of glass transport systems for the interior of your vehicle. These systems have been designed to transport your glass to its destination safely and quickly.

### FEATURES:

- Modular glass transport system
- Variable sizes
- Rubber faced retention poles
- Anti-slip sliding rubber chocks
- Lightweight aluminium construction
- Durable and solid

### BENEFITS:

- Excellent modular fit to get the right size to suit your application
- Improved health and safety with full rubber facing
- Increased efficiency of unloading and loading with spring loaded retention pole
- Increased fuel efficiency overtime
