Loading Ramps are designed to load and unload heavy cargo safely and with ease. With the gas spring operation these ramps are very easy to operate and made from tested materials that are built to last.

FEATURES:

- Gas stay assisted heavy duty loading ramp
- Anti-slip tread plate platform
- Easy operation and quick release locking system
- Loading capacity of 350 kg
- Lightweight, made from aluminium

BENEFITS:

- Health and safety conscious – minimal effort required to load and unload
- Anti-slip assurance preventing injury
- Commercial grade, built to last longer
- Reduce overall fuel consumption with less vehicle tier weight

Gas stay assisted

Anti-slip tread plate

Quick stow and unstow

Full rear access
