Auto Transform Seating has developed and engineered a floor system suited that allows flexibility in seating configurations to maximise your passenger transport functionality.

FEATURES:

- Robust aluminium profile
- Full length tracking rails through van to suit seating configuration
- Covered with your preference of carpet or vinyl
- Fully bonded system that puts no holes into vehicle floor
- Suitable for all makes and models

BENEFITS:

- Professional look and feel enhancing passenger travel experience
- More flexibility in configurations
- Better saleable value of vehicle with bonded floor
- Fully adjustable seat positioning
