The Turny seat ensures very easy vehicle access. This access solution eliminates hoist attachments to a car and allows the vehicle to be as normal as possible with a seat that is completely mobile for family and friends. It's as simple as placing yourself in the seat, pushing a button and driving to your destination.

FEATURES:

- Electric up and down and sideways movement
- 150 kg capacity
- EMC and crash test approved
- Comes with standard slim seat but your existing seat can be mounted provided there is enough space
- Available in fully electric or semi-electric

BENEFITS:

- Enables easy access into a SUV vehicle for wheelchair patient
- Travel in style with minimal difference to your car seating – clean professional finish
- Fully tested to New Zealand Safety Standards for your safety assurance
