

Enhance your vehicle's potential, with quick release mobility to enable maximum wheelchair capacity and passenger transport.

Mobility enhancement complements the range of mobility equipment with a specialist range of mobility seating. The double side-folding seat is designed for quick release mobility to enable maximum wheelchair capacity with passenger transport. Its durable cloth cover material allows for less cleaning and lower maintenance. The lap and diagonal seatbelt provides the safety and comfort you need. Our double side-folding seat is fully certified to New Zealand Safety Standards for your assurance.
