

Tough, durable and safe storage system you can trust.

Elite Storage Systems provides a range of tool boxes of various sizes to store your tools, securely and efficiently. These come with internal modular containers for small parts segregation. The metal tool boxes allow for safe, secure storage with a double locking system. This reduces the risk of wasting time with picking up parts from opened tool boxes. The variable sizing means we can fit it to suit your application. With plastic internal cartons available, you are able to segregate parts in tool boxes saving you time looking for what you need.

FEATURES

- Durable and longer lasting than plastic
