

Structured storage that keeps tools and parts organised, accessible, and ready to go.

Drawer units are designed to bring order to your vehicle fit-out, keeping tools and parts separated, easy to find and quick to access on the job. With modular unit and drawer sizes, you can configure the layout to suit how your team actually works – not the other way around.

Each drawer includes an automatic locking system to prevent movement during transit, along with anti-slip mats and aluminium dividers to protect tools and keep everything in place. The steel construction provides strength for daily use, with a cut-through design to reduce weight.

Finished with a flush, streamlined design, these units create a safer, more practical workspace without snag points.

Dimensions

Cabinet unit (mm)

- 350(H) x 507(W) x 483(D)
- 350(H) x 760(W) x 483(D)
- 350(H) x 1014(W) x 483(D)
- 350(H) x 507(W) x 241(D)
