Syncro System Tool Box Modular Fit

A great modular storage system for tidy, segregated, compact storage of your tools and equipment.

Our modular tool box units have a range of different sized modular units, allowing you to segregate your parts in a more efficient manner. Engineered for durability, they're free of jutting out parts and have an automatic locking system to increase your safety. Our tool boxes are quality assured to give your business a timesaving, professional look. They'll increase your working efficiency by making small parts easier to find. This is a perfect solution if you need to store small parts.

FEATURES

Modular

Many storage configurations
