Ute Service Body

AUTO TRANSFORM
Move Smarter

Auto Transform brings you a Ute Service Body that's one of the lightest on the market.

Made from 3mm aluminum this Auto Transform Ute Service Body sits on an aluminum flat deck tray. It maximizes space and allows you to save on weight while transporting all your equipment. With its modular design, the options for customised fit outs and optimising your specific space are endless. We have box bodies for single, extra and double cab.
