Service Body Tool-Box

A product that will stand the test of time, is reliable and fully caters to your companies needs.

Auto Transforms Side Tool Boxes are made from 3mm Aluminium to ensure that you have only the lightest materials on the back of your ute. Even though our side tool boxes are made from lightweight materials, they are tough, durable and will withstand your daily duties on the road. Our Side Tool Boxes are made to fit onto any size flat deck. For extra security and peace of mind when leaving the vehicle, our Side Tool Boxes have central locking integrated into the FOB. They are extremely durable with 2x heavy duty gas struts, and has a 110kg load rating on top. For additional ease of use, you can access the Tool Boxes with a single handle.
