

Vehicle Laptop Mount

The vehicle laptop mount is a heavy-duty vehicle mount that meets all of your mobile office needs. Perfectly secure your tablet, laptop or any electronic device when you are on the road. The best portable working station for professionals on the go. This car laptop mount easily installs to the front passenger seat to create an easier way to take work on the go. The sturdy aluminium arm has full motion functionality allowing it to adjust to your liking. The head and base joints can move 360 degrees around for versatile angling. The middle, base, and head points can also tilt a full 180 degrees for specialised adjustments. The base features a quick release system, allowing the mount to be removed from the base without fully uninstalling it..
