

SmartBoard is our new light weight, high stability lining system.

Our new SmartBoard lining system is the perfect alternative to wood and cardboard linings.

Made from lightweight, hard-wearing plastic, SmartBoard is a smart choice for the planet and your pocket. Our innovative new product weighs less, saves fuel, lasts longer and is 100% recyclable.

SmartBoard is approximately 60% lighter than wood linings, giving you second-to-none fuel efficiency while providing quality protection for your vehicle's interior.

SmartBoard lining can be used throughout your vehicle for floors, false floors, sides and drawer bases.
