Service Body Trailer

Auto Transform brings you a Service Body Trailer - Perfect for a flexible and mobile workshop without the added cost of vehicle.

This Auto Transform Service Body sits on an aluminium flat deck tray to a steel trailer chassis. It maximizes space and allows you to save on weight while transporting all your equipment. With its modular design, the options for customised fit outs and optimising your specific space are endless.

Whether you are a tradesman, cable jointer, diesel mechanic or hydraulic fitting company, these trailers are sure to make a difference to your business.
