

## Quality In Transportation

The double fold away seat carries two passengers when in use and folds compactly when you need the floor space. The complete side-folding system tucks the entire unit out of the way to make room for a wheelchair, equipment, or larger cargo. Adjustable backrests recline or lock upright for comfort on longer trips, and folding armrests give passengers easy access in and out. A practical addition to any flexible mobility or passenger fit-out. (this seat is suitable for a 9 seat build)

## FEATURES

- Folding armrests
- Complete side-folding system.
- Fixed and reclining backrest
